Sankalp Marathi Shala Welcomes you.

Teachers are the most valuable members of this Shala initiative.

We appreciate your love toward our mother tongue Marathi and the decision to volunteer to preserve and pass the rich heritage of our language to the next generation.

As this is a non profit community initiative we expect teachers to understand their role in this journey. For Responsibilities of Principal please refer to the constitution Section 5 (<https://www.sankalpmarathi.org/constitution> ) and is avoided to duplicate in this document.

## Volunteer Engagement:

As a valuable member fo shala initiative

- We expect at least a one year commitment, with an exception of personal emergencies or job situations in which your effort to identify a back up **Teacher** or patience until a new teacher volunteer is identified by us would be highly appreciated.
- All **Teachers** are volunteers for Sankalp Marathi Shala, and are not paid any hourly compensation. As per BMM rule **Teachers** shall fill in the onboarding form for accepting this as a volunteer role with no compensation.
- Based on the commitment, the Principal and Shala administration would allocate a batch/class to every **Teacher** after yearly enrollment or as a backup if joining in the middle of the school year depending on the situation as decided by the Principal.
- **Teachers** would have a choice to discuss feedback on class allocation/time/day that works better for them, during the initial kick off of classes every year. We would cooperate and collaborate with other teachers to create schedules that work with teachers and parents both. Your flexibility and cooperation would be well appreciated at the same time in this finalization.
- A new **Teacher** may be paired with an existing teacher to create enough backup and resiliency in our operation.
- At the moment there is no hierarchy , seniority amongst teachers to allocate for higher grades classes etc. The teachers may or may not be continuing with the same kids batch year over year.
- The class allocation could be subject to change as situations arise during the year on a need basis and would be decided by the **Principal in collaboration with a Teacher** or multiple teachers.
- **Teachers** are expected to participate in every in person activity to represent their class as planned by the Principal and Shala administration. Any conflicts to be reported to the Principal , Shala administration in advance on

the common WhatsApp Group well ahead of activity to ensure enough coverage by other colleagues.

- Any escalation to be reported in monthly meetings with the Principal, Shala administration.
- Teachers are expected to attend the weekly/monthly meeting except any medical emergency.
- -Decisions made in the teachers meeting will not be changed.
- -One month notice should be sent to [sankalpmarathishala.com](mailto:sankalpmarathishala.com) and inform the shala management.
- -Do not share any shala material OR shala internal information with non-shala parents/others.

## Responsibility as a class Teacher

Each **Teacher** is responsible for taking the weekly 45minutes virtual/in person class.

- Do Assign homework
- Do Record attendance
- Do Review submitted homework , and track any missed homework for final grading.
- Do Set the mid term exam paper, any other evaluation paper needed based on the portion covered, BMM criteria for the final exam.
- Do Cover the syllabus as per BMM curriculum if the class is appearing for BMM exam.
- Do Conduct oral exams of cross batch students.
- Do Assess written exam papers of cross batches.
- Do Provide constructive feedback to parents and students to maintain their interest in language learning.
- Do report any parents concern, change requests to the Principal and collaborate to resolve it.
- Do provide equal time, attention to each kid to keep everyone engaged during the class.
- Don't chase parents for homework apart from gentle reminders as the grading criteria would be shared with them as part of the Parent handbook.
- Don't take any alternate backup classes for individual kids due to schedule conflicts, to keep consistency across all batches, shifting the entire class **+/- 15-30 mins** if agreed by all parents could be a better option. If an individual kid has conflict after the start of classes it should be discussed with the Principal to consider if shifting him/her to another class would be more convenient.
- -Conduct meeting with parents in the first month when the school starts.

- Discuss the about the rules, roles and responsibilities of the parents and teacher.
- Discuss about the marks evaluation at the beginning of the school.
- Conduct meeting before exam and discuss about the exam syllabus.
- Discuss with shala management before posting any msgs on teachers group.
- Inform the parents to send the email to shala if unable to attend the Event/Exam.
- Do not share any shala books and shala internal information with external/non-shala people.
- 

## Absence/Reschedule Handling for Exams

As part of the parent handbook we would request parents to send formal requests if they are travelling, having any conflict with scheduled exam dates. This formal email would be requested to Shala email id and respective class **Teacher** at least a week ahead of the actual exam date. The absence due to an emergency in the family , medical conditions could be reported as soon as possible on or after the exam date. However, below situations are for high level guidance the **Principal at its sole discretion** may decide to take the exam of the student **by him/herself or allocate another available Teacher** in consideration kids grades would not be impacted.

Upon request the Principal shall consider exam rescheduling based on

- Pre booked travel itinerary domestic across the state or international
- Medical emergency of a child for any of the parents.

Except for the exam, no other rescheduling is done for in person activity events and the teacher should record the absence.

## Exam Guidelines

- Levels: Exams progress from basic (Level 1) to more advanced, assessing mastery of concepts taught at that level.
- Components: Typically include written (MCQs, comprehension) and oral (speaking, recitation) sections, sometimes with discussion boards.
- Progression: Based on classroom performance (homework, quizzes, attendance) and interim/final exams.

## Escalation

- To be reported to the Principal, Shala administration. Formally using email, Informally via Whatsapp group.
- To Mandal EC formally through email

## Conflict Resolution

Conflicts/escalations received by Sankalp Marathi Shala-

Any conflicts/escalations raised by parents/students are to be managed by Shala using their conflict resolution process.

Level 1 – Parent/student with Teachers

Level 2 – Parent/student with Coordinator(s) and teachers involved

Level 3 - Parent/student with SMM Executive committee, Shala Coordinator and teachers involved

## Digital content rights

Any Digital content (pictures / videos etc.) created by the Shala, sharing should be managed by the Shala coordinator. All content, digital or otherwise, created by Shala is a sole property of the Shala and will be shared with other Shala(s) on request.

## Year End Evaluation

Except for Kids appearing for the BMM exam which would follow BMM exam criteria for evaluation, all other kids will be evaluated based on the internal exam conducted by Sankalp Marathi Shala based on sample BMM sample papers and syllabus covered. The internal evaluation is to decide whether a kid is ready to move to the next level or appear for the BMM exam in the next year. A child may take a year or two to get ready for each BMM level exam.

**Teachers'** input based on the mid term, final exam evaluation, homework, attendance etc are critical to decide child progress and provide concrete feedback to parents. The final outcome to be reviewed with the **Principal** to ensure we are on the same page before communicating to the parents. Hence **Teacher and Principal** together should decide in advance which kids could get ready for BMM

exam in the following year and which needs to complete/revise the curriculum pending to get ready for the BMM exam.

So while a few kids or the entire class is continuing at the same level they may be learning the remaining advanced topics to meet the BMM exam criteria and there is no pass/fail criteria. This is important for parents as well to understand than rushing kids for the BMM exam and ending with disappointment if they don't perform well in the BMM exam. Similar guidelines are added in the parent handbook and this is also helpful in planning next year's batches.
